

# The Ninth International Workshop on Numerical Analysis and Lattice QFT (QCDNA)

## Monday 01 August 2016

Poster and discussion (17:45-18:45)

Poster and discussion: Towards using the GRID as a low level library / Some tips on BiCGstab (18:45-19:00)

-Conveners: Issaku Kanamori

Poster and discussion: True Multigrid for 5d Chiral Fermions (19:00-19:15)

-Conveners: Azusa Yamaguchi; Peter A. Boyle

Poster and discussion: Lattice QCD on NVIDIA P100 and DGX-1 (19:15-19:30)

-Conveners: Kate Clark

Poster and discussion: Domain Wall Fermion Simulations with the Exact One-Flavor Algorithm (19:30-19:45)

-Conveners: David Murphy

Poster and discussion: pMR: A high-performance communication library (19:45-20:00)

-Conveners: Peter Georg; Daniel Richtmann; Tilo Wettig
