

Theoretical Modeling of Large-Scale Structure of the Universe

Wednesday 05 June 2024

Observational steps (14:00-15:00)

time	[id] title	presenter
14:00	[34] Emission line galaxies: local PNG bias (Desjacques)	
14:30	[35] Tomographic analysis with the weak lensing convergence one-point statistics (Castiblanco, presented by Harnois-Deraps)	

Observational steps (15:30-16:30)

time	[id] title	presenter
15:30	[37] The Effective Field Theory of Large-Scale Structure and Multi-tracer (Voivodic)	
16:00	[8] Going beyond redshift-space distortions with the streaming model (Dam)
