

- Physics discussion
- Pietro's talk: StN
- Tobi's talk: Laplace filters
- Vera's talk: Rare K and hyperon decays
- Mattias' talk: Integroids
- Anything else?

- Future plans: Odense (2022), Stavanger (2022), Helsinki (2023), Lund (2024), CERN (2025), Edinburgh (2026), [where? \(2027\)](#)
- What do you think about the Nordic Lattice meetings so far?
- Nice with a community, and seeing different lattice applications than at local nodes
- Good for ECRs: Present for a broader lattice audience, organising a workshop (for grants/jobs). Networking for new collaboration
