

2nd UK Workshop on Silicon Tracker for a e^+e^- Collider

Introduction and Overview

1. Welcome
2. CEPC news: Prof. Joao Guimaraes Da Costa (Chinese Academy of Sciences)
 - Snowmass process
3. Silicon Tracker News
 - New Chinese & Italian collaborators
 - ATLASPix3 sensors: delivery and order
 - Readout systems: KIT PCBs, YARR & Caribou
 - Quad flexes
 - Sensor evolution: New “MPW” submission and Chinese fab
4. General discussions for UK collaboration and next steps
 - How do we present ourselves to the outside world?
 - Meanwhile: Snowmass, LHCb, eIC
5. Tracker prototype specifications
 - Next technical steps
